04. OFFICE

01. Commercial / Media Facade
02. Transit / Media Facade
03. Hospitality / Pendants
04. Office / Luminous Surfaces
Each of these images shows how lighting can tell a story and evoke emotion. Light that moves, sets the mood, and transforms how people experience a space.

Light does more than illuminate. At its best, it moves, tells stories, and transforms how people experience a space.

RGB Lights was built on this belief. We design and deliver dynamic lighting systems for specifiers and those who want to do more with light. Our solutions range from large-format media facades and luminous surfaces to digital linear and pendant luminaires, bringing architecture to life across environments where light can transform an experience.

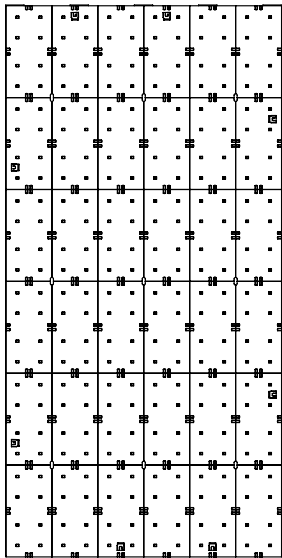

What sets us apart is how we show up. Our team provides global on-site integration, programming, supervision, and commissioning, from concept through completion. We do not hand off a product and walk away. We see it through.

- 04. Commissioning / Office / Pendants

FlexiFlex - Clemson University

Large surface coverage for outdoor and daylight applications
Adds movement to architecture, messages or moods
Digital programming to display files in sequence

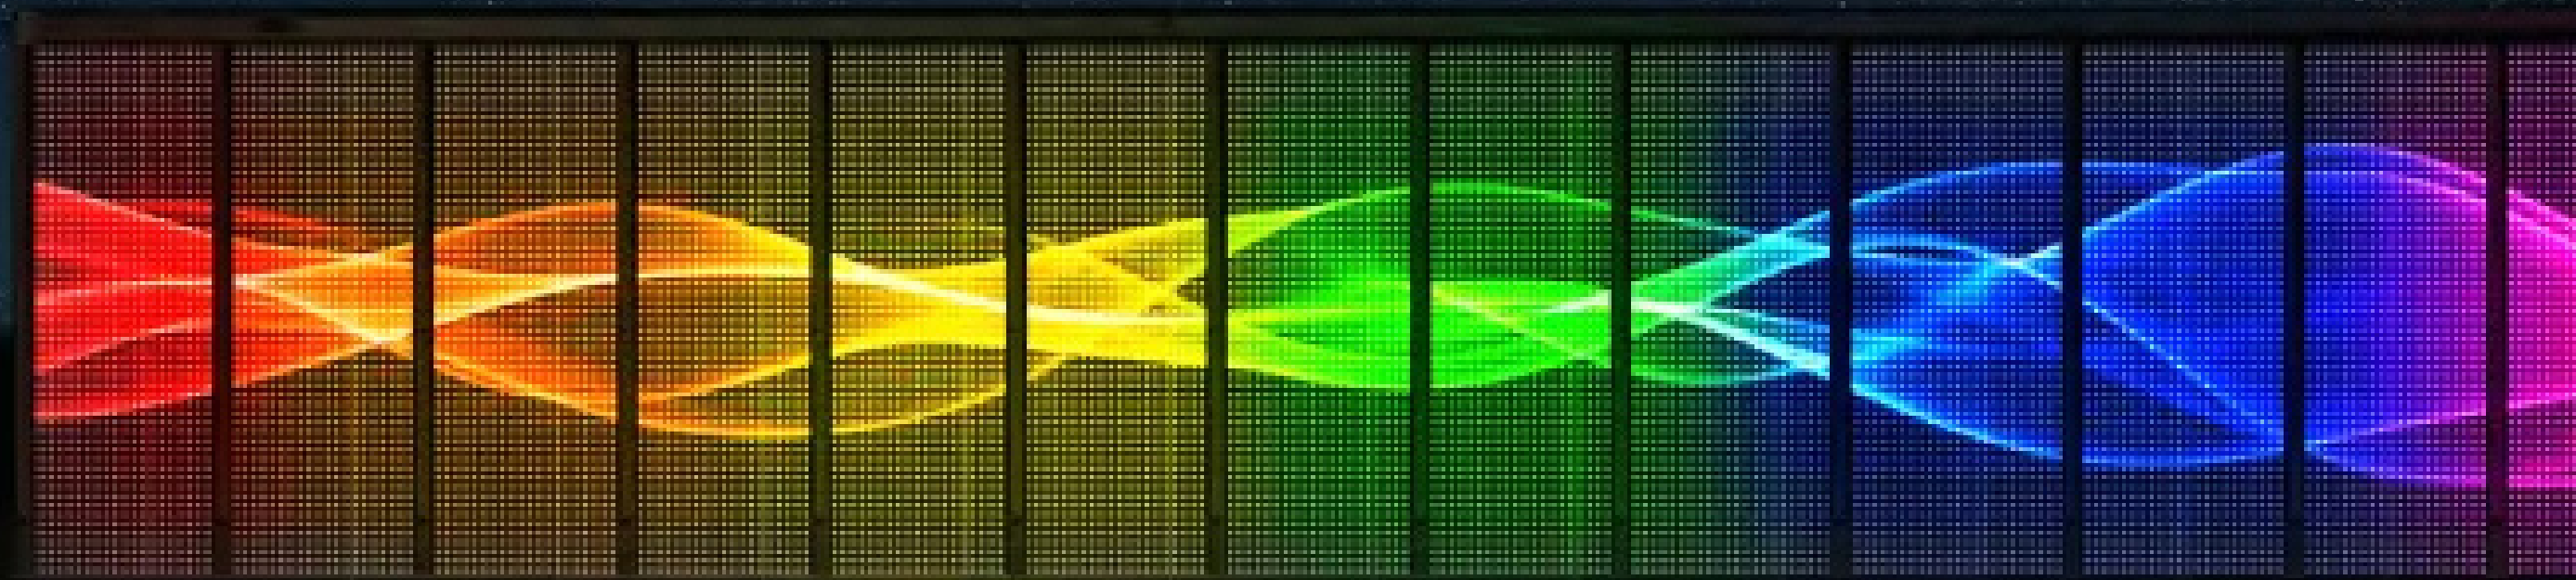

RigiFlex - Capital One DC

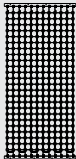

Robust, durable and easy to install
Perfect for lighting effects and streaming media
Ideal for longer setback viewing distances

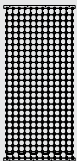

RigiFlex - Helix Pedway MD

Robust, durable and easy to install
Perfect for lighting effects and streaming media
Ideal for longer setback viewing distances

Custom - Arboreta Breezeway Chicago

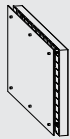

Durable and configurable
Multiple custom mounting options available
Suitable for both indoor and outdoor applications

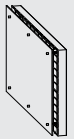

FlexiPlane - Soul Cycle Vegas

- Custom indoor applications with eye-catching motion
- High-contrast, high-intensity LEDs
- Durable acrylic diffusers available

DigiPlane - 401 Michigan Ave

Mid-resolution display for dynamic effects
Cut-to-size for flexible installation
Diffusers available for a polished look, fabric, or acrylic

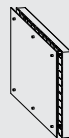

DigiPlane - Guaranteed Rate Field

Mid-resolution display for dynamic effects

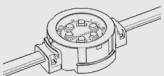

Cut-to-size for flexible installation

Great for indoor and damp locations acrylic diffuser

Custom - The Spark Menlo Park

Versatile arrangements and outputs
Can be paired with custom canopy and diffusers
Suitable for both indoor and outdoor applications

Globe 4.0 - Hospitality Lounge

4in. omni-directional spheres with 16 million color capability
DMX controlled for precise programming
Multiple canopy, finish and decorative options available

PENDANTS

Globe 4.0 - Initial Rendering - Live Install at Hyatt Tap Chicago

4in. omni-directional spheres with 16 million color capability

DMX controlled for precise programming

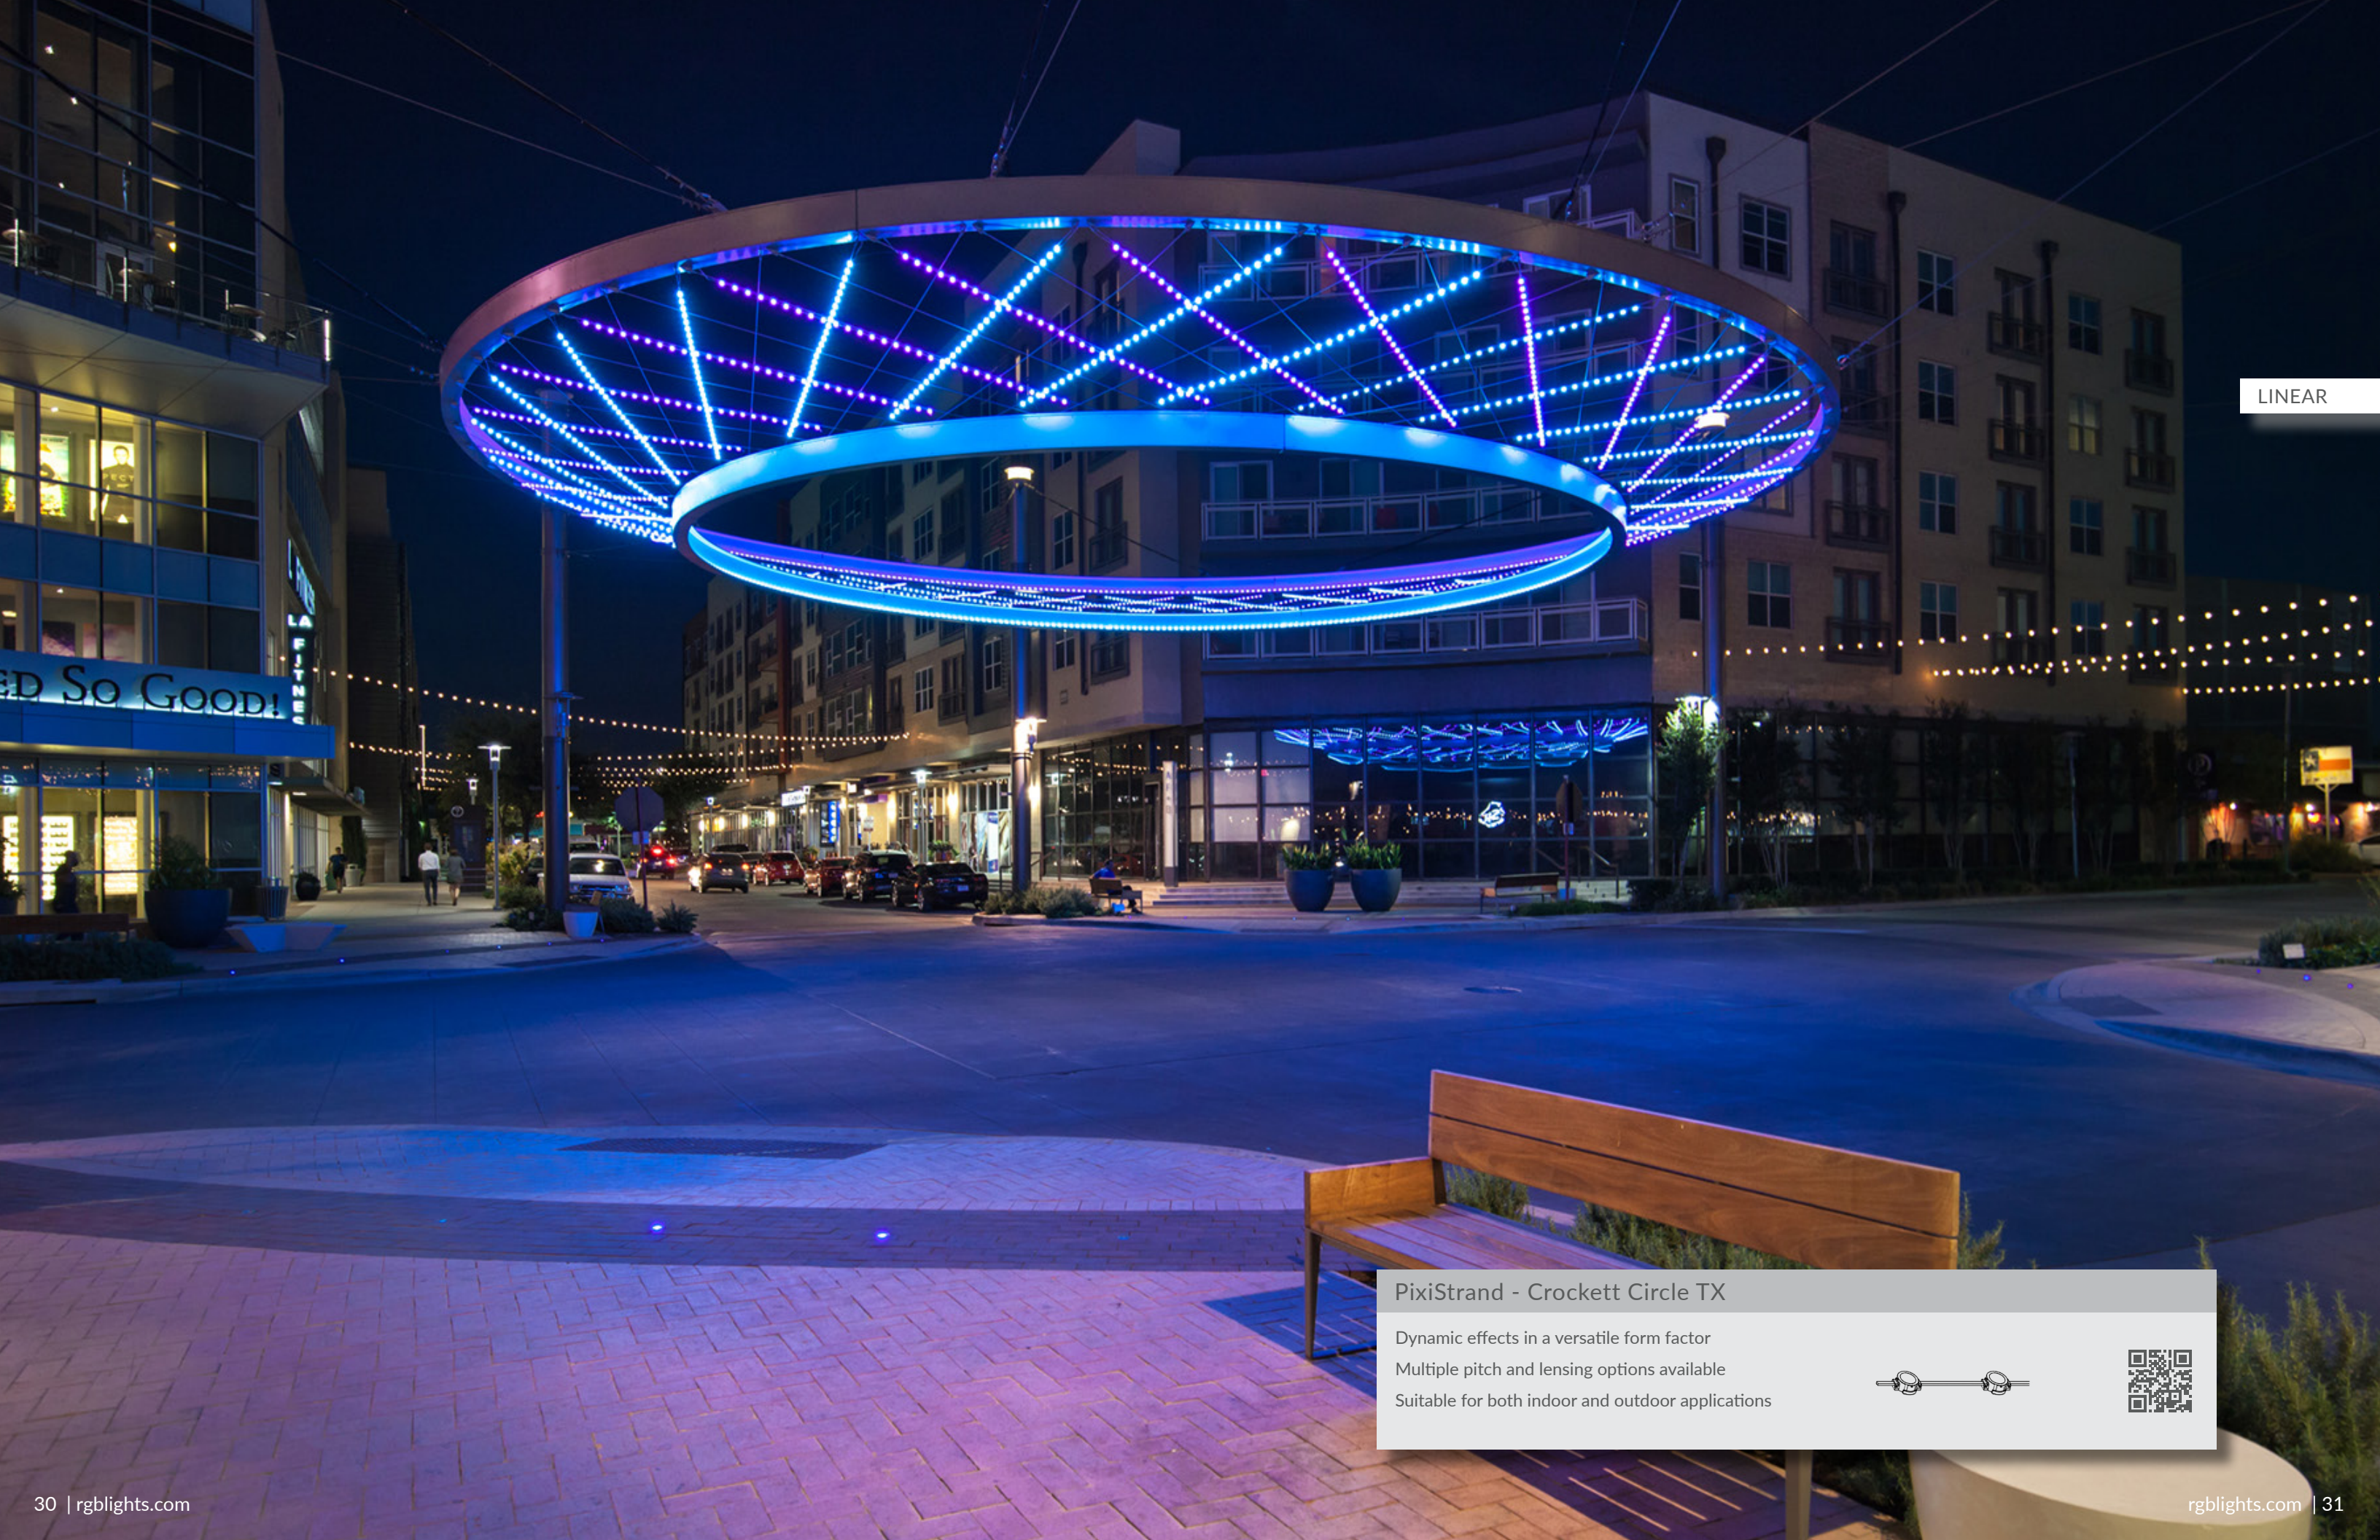

Multiple canopy, finish and decorative options available

Cylinder 2.0 - Cira Center PA

2in. diameter cylinders with 16 million color capability
DMX controlled for precise programming
Multiple canopy, finish and cylinder length options available

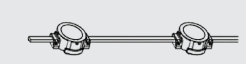

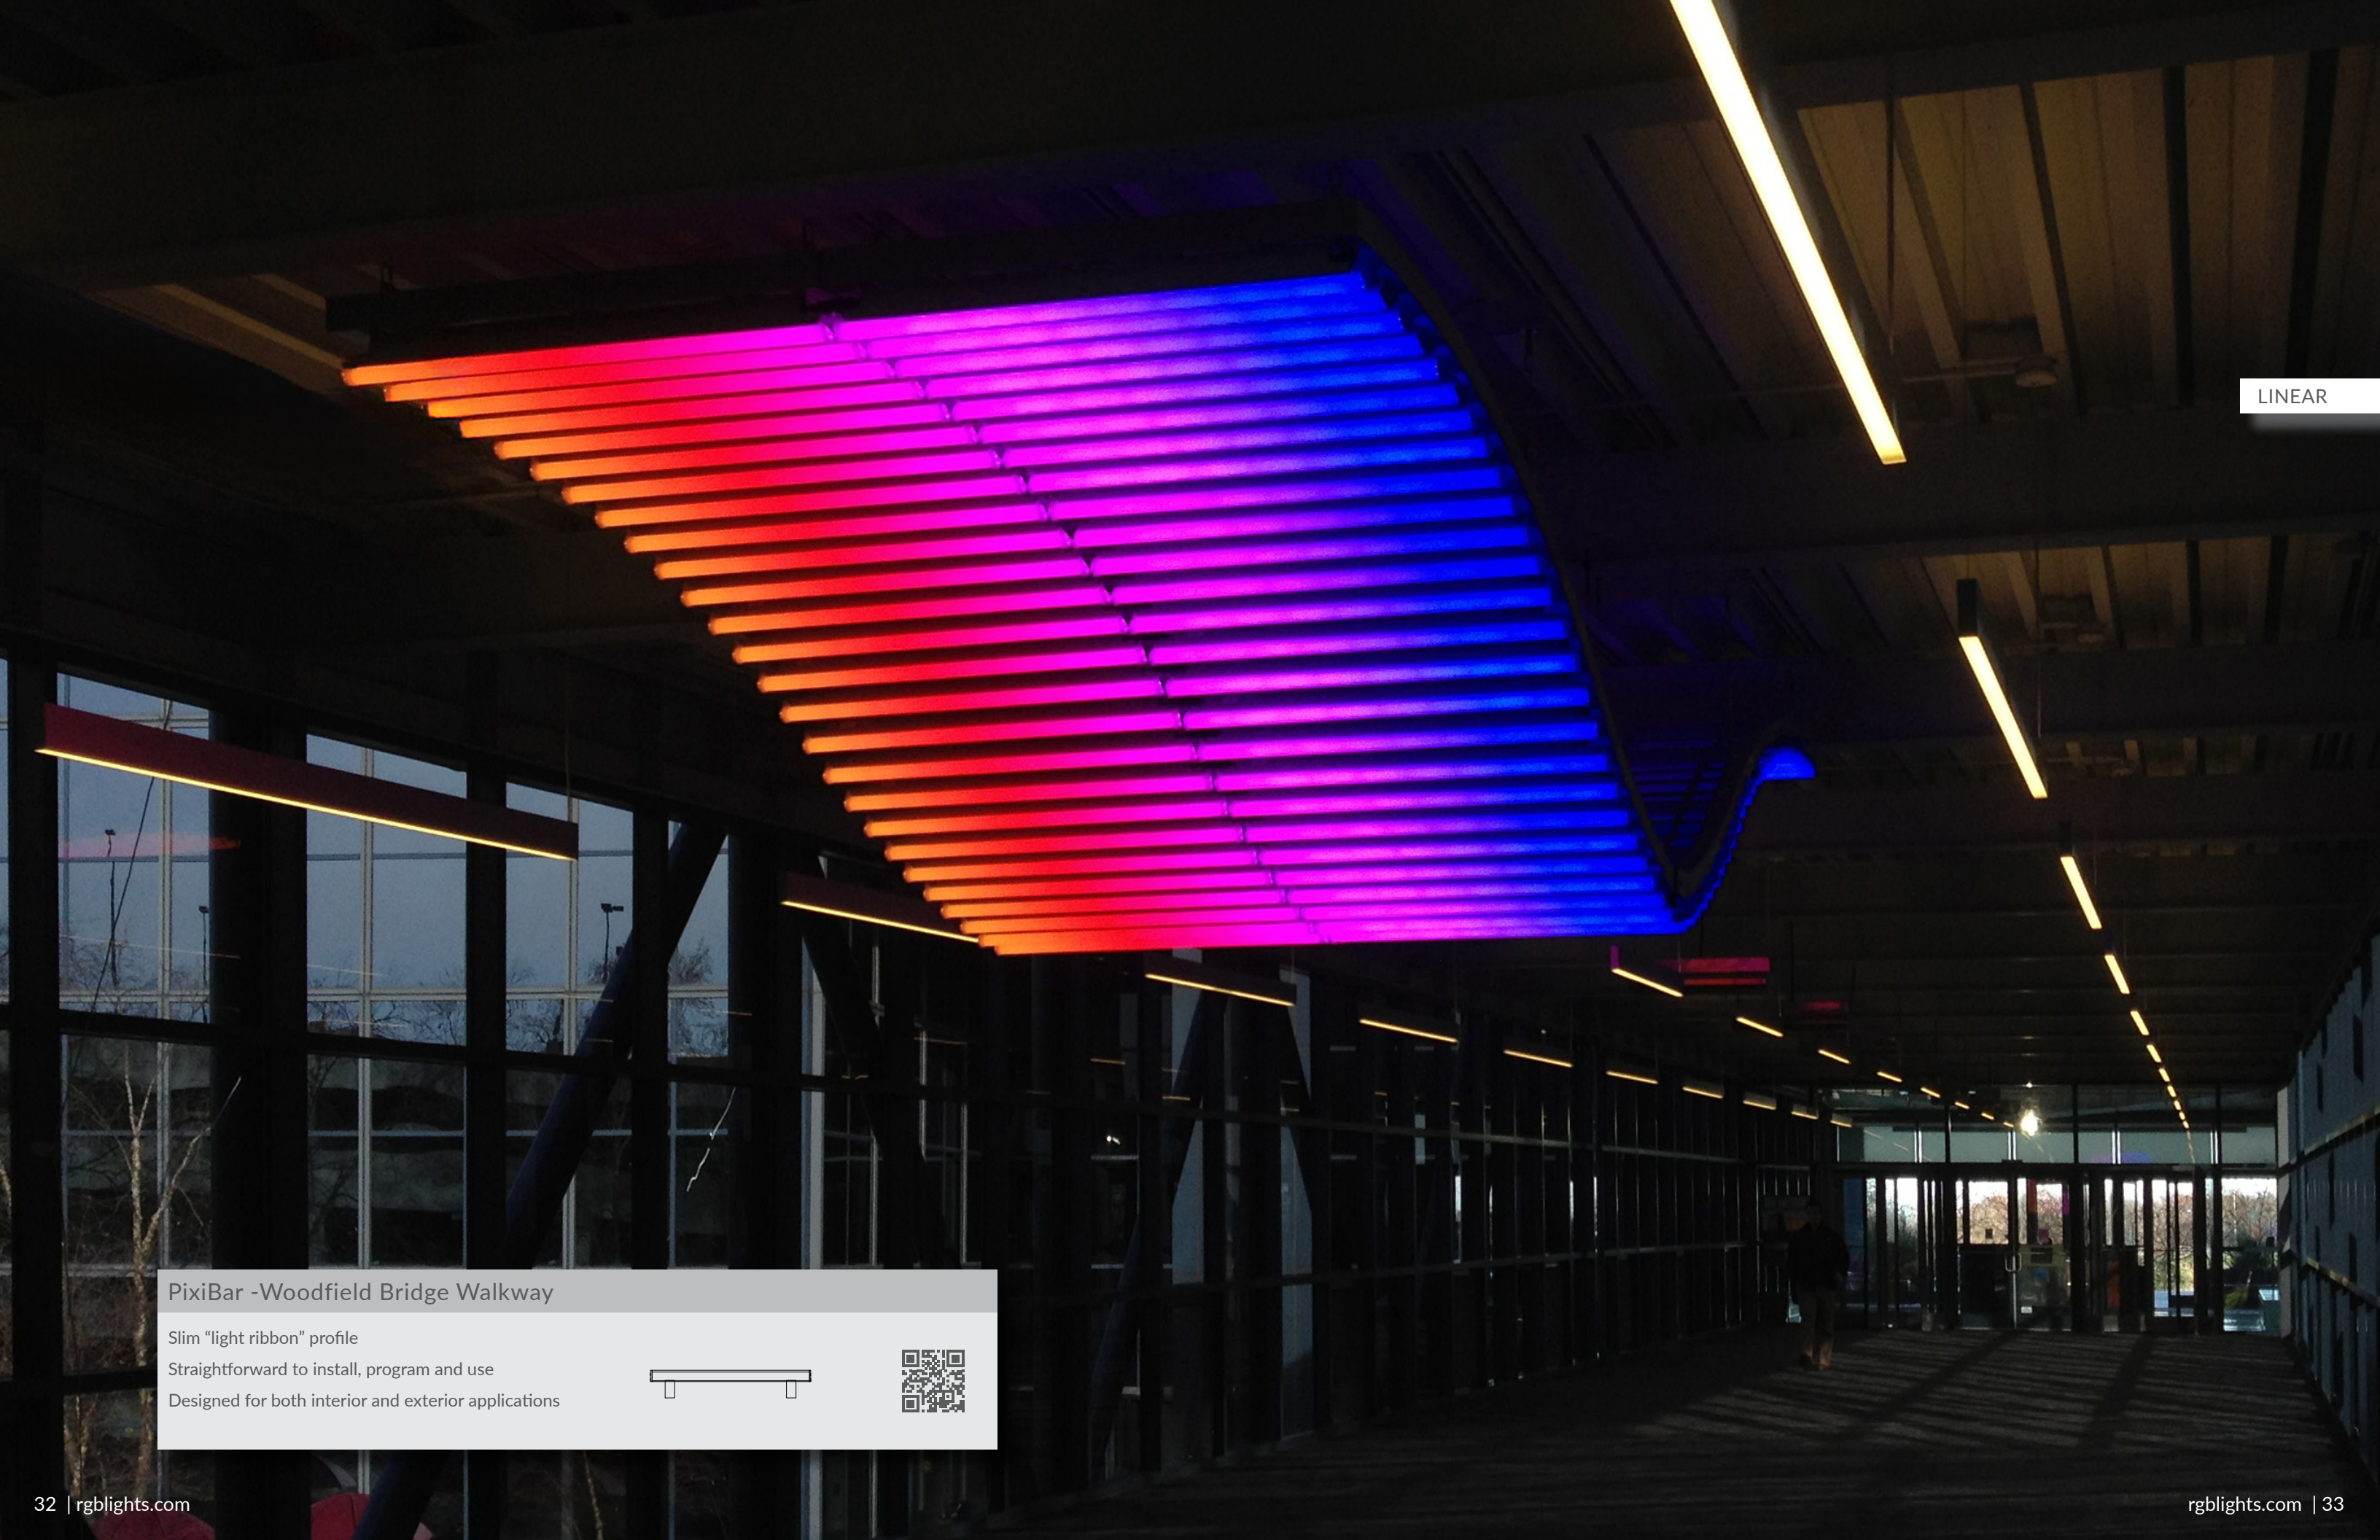

LINEAR

PixiStrand - Crockett Circle TX

Dynamic effects in a versatile form factor
Multiple pitch and lensing options available
Suitable for both indoor and outdoor applications

LINEAR

PixiBar -Woodfield Bridge Walkway

Slim "light ribbon" profile

Straightforward to install, program and use

Designed for both interior and exterior applications

LINEAR

DigiNeon & DigiTape - Office Lobby

Flexible construction for memorable installations

Pixel-addressable for precise programming and control

Indoor and outdoor options available

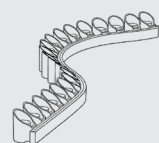

LINEAR

PixiCurve - Structural Wall

Powerful and precise illumination of architectural elements

High-efficiency output and even dimming

Multiple optic options available

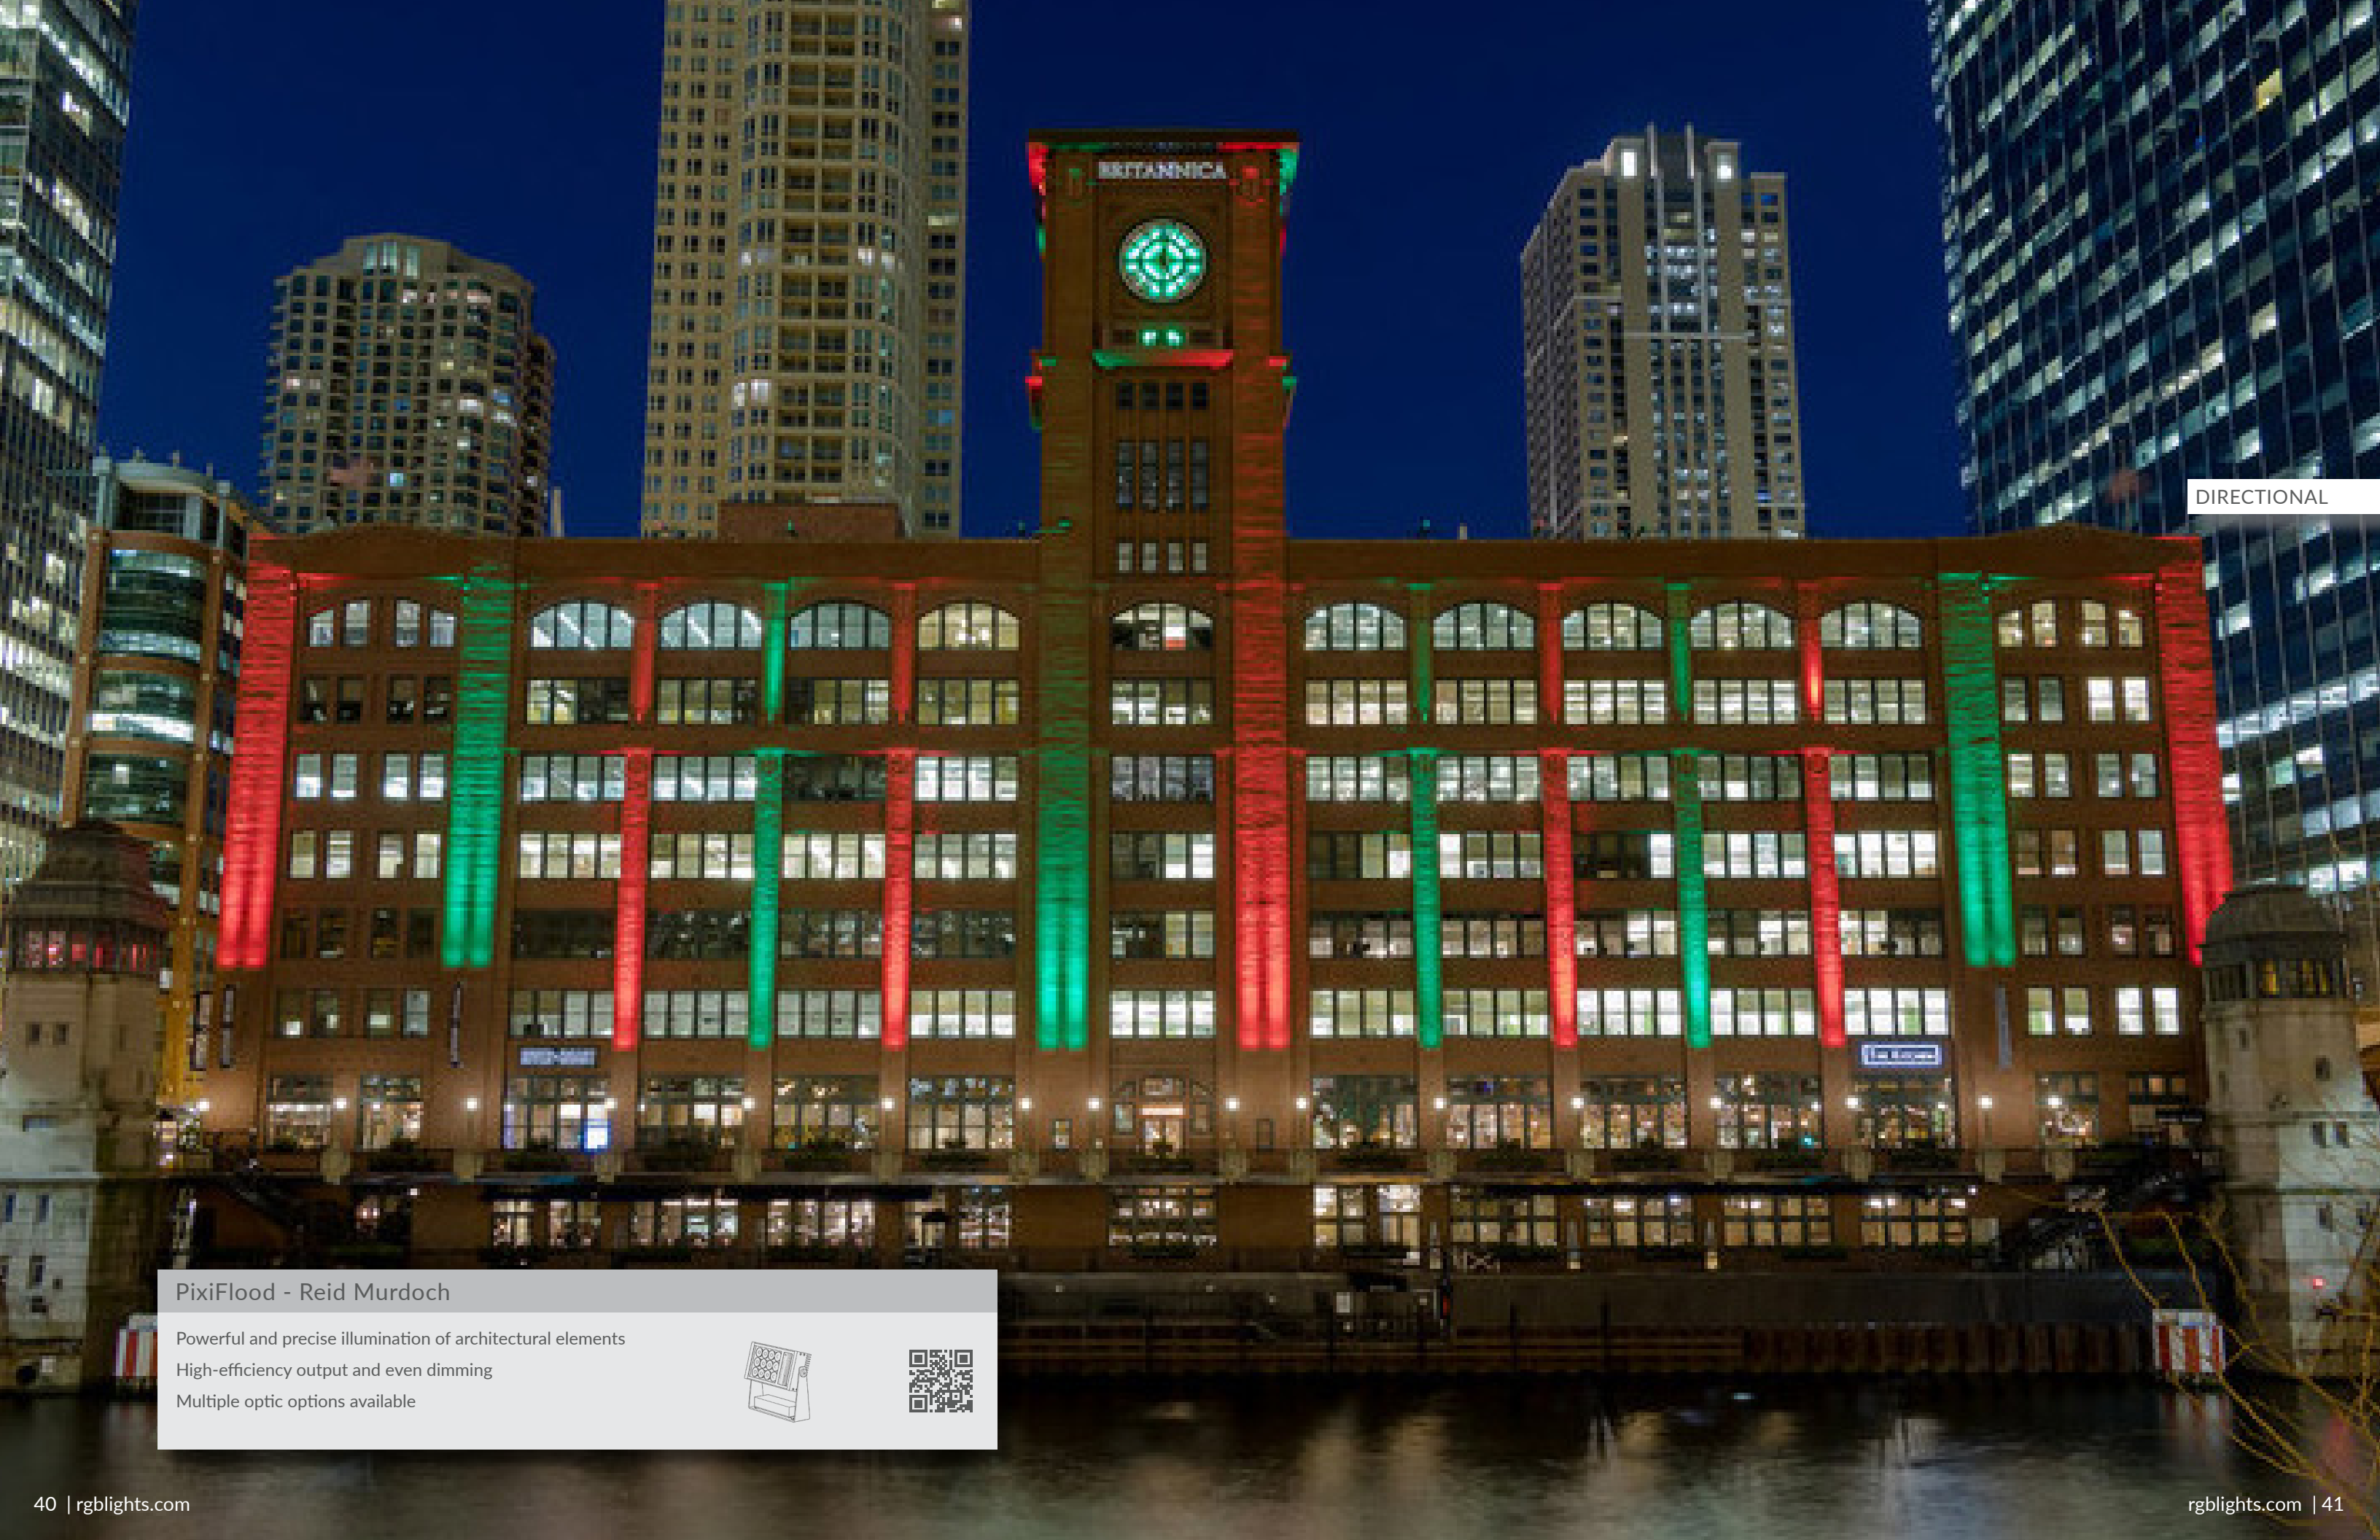

DIRECTIONAL

PixiWash - Chicago Event Venue

- Seamless color blending
- Suitable for both large and small-scale applications
- Multiple optic and mounting options available

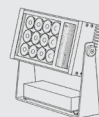

DIRECTIONAL

PixiFlood - Reid Murdoch

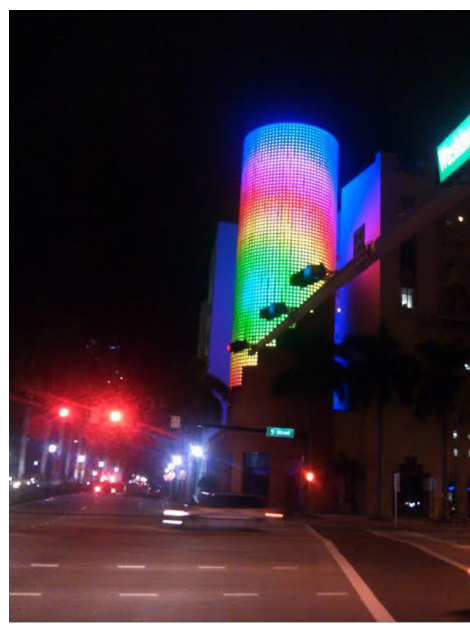

- Powerful and precise illumination of architectural elements
- High-efficiency output and even dimming
- Multiple optic options available

CONTROLS

South Beach Tower
Controls: Madrix and Green Hippo

Irvine Ferris Wheel
Controls: Pharos

EFFICIENT TECHNOLOGY

Our LED products are inherently better for the environment due to a 50,000+ hour lifecycle and efficient energy use. More lumens per watt means less energy consumption.

CIRCADIAN SPECIFICATIONS

Adjustable color temperatures and flicker-free dimming offer a natural simulation of the sun, enabling healthier indoor spaces that can regulate our circadian rhythm.

RECYCLING

High quality, recyclable materials in our products translate to less waste for our planet.

DECLARE LABELS

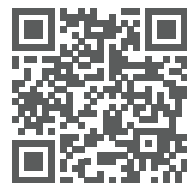

We demonstrate market leadership in healthy materials and material transparency. With Declare labels, customers may easily make informed decisions about our products.
